On Sale Now

Visit bit.ly/OutMusic to download composer Krista Penney's debut album or get the CD. Released in September, Outburst is a diverse album of chamber music that takes you on a journey from your inner self to outer space. Krista's music is imaginative, fun, and thought provoking; influenced by jazz and pop, but firmly rooted in the classical tradition. Download the album for \$7 or get the CD, with a special bonus track, for \$10.

On Outburst, 18 talented musicians join forces to bring 5 original compositions to life. The album opens with a bouncy, angular duet for saxophone and piano evocatively titled *Devildance*. The duet is followed by a 10-piece chamber ensemble playing *Exobiology*, an energetic work inspired by science fiction that marries playful, jazzy melodies with avant-garde techniques. Next up is *Pedestals*, an introspective song that finds the sweet soprano solo supported by an ever-changing texture created by a woodwind quintet. Another duet, this time for clarinet and accordion follows. *Traveler's Tune* is a fun, melodic jaunt. Finally, a percussion trio called *Move* features music associated with movement; marching, dancing, and Taiko drumming. The CD comes with a bonus track, a warm jazz standard called *Almost Like Being in Love* with the composer on vocals.
